[Limit of 12000 characters requires multi-part submission : PART 1]

Dear FBI, Cyber Crimes Division,

This email may be confusing at first. All of this report is accurate. First, I must reflect my identity to you.

The internet domain names in this report are valid. At the present time, there really is nothing there but personal memespace. That is not my goal for the world.

I have previously visited the Oakland Office of the FBI on June 21st 2006 and talking with your agent there. You can find this is documented on the by a quoted web search ["FBI Agent @ FBI OFFice Oakland CA June 21 2006"]. What I am reporting today is not related to that but I am just attempting to provide to you my ID is real. There would be on file my face to face in person visit there and there is a record of my visit. Whatever was said, I had no accreditation for what I was attempting to express and relate to him at that time.

But in 2012, that is not true. Please Google BOOKS Search ["In The Mindway"] : <https://www.google.com/search?q=%22in+the+mindway%22&btnG=Search+Books&tbn=bks&an>

See what is shown.

I am mentioned among many credited, but I am one, and I am credited.

Yes, this is me

Thank you much Wikimedia Foundation.

While I have you at Google Books, The next thing I wish to quote before getting to my direct report is:

Google Books Search [""go fix some weighty truth"]

Go fix some weighty truth;
Chain down some passion; do some good;
Teach ignorance to see or grief to smile;
Correct thy friend; befriend thy greatest foe;
Be just in all things; make amends
For follies past, and, with warm heart,
Forgive, and be forgiven. Let work not words
Thy virtue prove. Go act as well as prate,
And then thy counsels will be strong,
Thy reprimands avail. ANON.

THE province of the historian is to gather the threads of the past ere they elude forever his grasp, and weave them into a harmonious web to which the "art preservative" may give immortality. Therefore he, who would rescue from fast-gathering oblivion the deeds of a community, and send them on to futurity in an imperishable record, should deliver a plain, unvarnished tale.

Please help me find a way to REPRIMAND these people permanently off the web. Thank you.

My report today is related to a facebook conversation that has already been reported to abuse@facebook.com. However, if you are not already aware, that is not a valid reporting address according to their site and reports must be submitted by web form, such as yours, but their form has limits. I did follow up with about 6 separate reporting submissions all with the reference page: [<https://www.facebook.com/casey.andrews.986>] Right now, there are four of my posts on her page including the below conversation.

Do you realize how much time and effort it takes for one person to do this? Not many out here do this.

The easiest way to report this type of activity is to read the conversation directly. Your conclusions will be the same as mine. I attempted to establish a dialogue with this person on respectful balanced merits. She first contacted me on Sept 20th - if she is even a real person and not a processing code robot of some kind.

As I conclude in the abuse@facebook.com submission, there has to be something of greatness done about this type of shit!

Yes, I am now talking adult to adult to you. I cannot be any less respectful when you realize who I am in domain memespace. Please see this conversation complete and my working attempt here complete too. Thank you.

I am going to provide the email as written to abuse@facebook.com with a preface to a friend of mine here locally with his ID removed.

Please confirm my email has been received at least. Last time I submitted something to the FBI via direct email, I never got a human confirmation and had to FORCE A FLOOD of non-issue but relative matters in order to get a reply. That reply was "Stop contacting us and my issues could not be handled." Relating to Cyber-Stocking, Cyber-Harrassment, Cyber-Bullying and Cyber-Hacking. The account status details given to the agent, but refused to be investigated. Documented on the web. If I was in that office today, they would have had to take my complaint. So, I expect a confirmation and not just ignor[ance]. This is not proper to just ignore a report without confirmation. I expect a level of sharing exchange. Is that way to much of a GRUW UP way to ask for?

Thank you.

[This is my actual email address ID for my real work]

[Addressee Removed],

More people have other time to do other work out here on the web.

That would be what I spend my time doing.

This is one conversation of my attempt.

There is no such reporting address as Abuse@facebook.com so I had to piece meal this out to the reporting form [limit like 500-700 characters] AND posted the conversation to the page of Ms Casey Andrews for anyone else to see it publicly as well. It losts the nice formatting in the copy/paste action, but it is there anyway.

My conversation [as below] link to this bull shit is:

<https://www.facebook.com/messages/100004325921330>

Yes, I am on here trying to do something positive about this type of shit!

Maybe one day you will also feel safe to venture to facebook without having to deal with this too.... this was one reason you told me you don't like facebook.

Thank you for reading and understanding me to this point.

And being my real world friend.

congratulations. I am glad that you have decided to join us. Interfacing to a global community has certain "learning curve" elements and can be intimidating to some. My concerns first is that if I use the direct domain site, all it gives me is "Hello world !" Is this a joke? http://en.wikipedia.org/wiki/Hello_world_program

en.wikipedia.org

Because it is typically one of the simplest programs possible in most programming languages, it is by tradition often used to illustrate to beginners the most basic syntax of a programming language, or to verify...

Supplemental Information

----- 09/26/2012 01:04:03 -----

I want to confirm that you received PART 2 and LAST of this submission report. My result for this 2nd submission was:

Complaint Referral Form

Internet Crime Complaint Center

Thank you for filing a complaint with the Internet Crime Complaint Center (IC3).

The IC3 website has registered this complaint as a duplicate submission. The most common reason for this is a consumer has submitted their complaint and then hit the "back" button on their browser and hit the submit button a second time.

If you do not receive a confirmation e-mail within two days, please re-file your complaint.

The language of this result message reflects that you do in fact have the content of this second submission. Although I did use the page back and edit form box to submit the addendum and conclusion, it is not a duplicate content submission. If you do not have that second content, please respond. It is an important conclusion to this matter that actually states "This is really a matter of national security, now is not?" Thank you.

----- 09/26/2012 01:08:34 -----

If I am following this correctly, I think I better submit the addendum here. My first time using this site form submissions, I have to give you much credit! Thank you.

[multi-part submission : PART 2] FBI Clarification of reporting terms in previous submission. Please indicate the initial means of contact with the individual/business that victimized you: [Facebook Email] Was this initial means of contact unsolicited/uninvited? Yes [No] : With explanation Friend Requests are Desired therefore open to abuse. How much time has passed since you determined you were victimized? (select the best approximation) Explanation: At first friend request, from prior experience of dealing with this activity behavior on this site and others, I kind of knew at first glance this request was going to be a scammed. But I followed through anyway. At this point in this conversation, I have not been scammed. But yes, I have put my ID and personal safety at huge risk if you consider everything if they decide to actually come personally after me here in Cheyenne Wyoming. Who are they? You know FBI and I know. This is really a matter of national security, now is is not? These are off shore people in what I can best describe as boiler rooms working to scam Americans out of dollars. Why does this situation continue. My

last report to the FBI was related to my interaction with: <http://amexservices.com> and have no idea if/when the site changed from my report to now what I find reported at: <http://www.complaintsboard.com/complaints/amex-legal-service-plan-c585871.html> I am not researching that. My prior contacts to the FBI were under jmdriskill@post.com --- and that mail and files are on a hard drive that are for the moment offline due to END OF SERVICE LIFE issues. Thank you for reading. Thank you for confirming. I told facebook in their submissions, if I have to, I would create the URL: <http://fuckeduphuman.net/facebook.com/casey.andrews.986> If I had to. Note the following is valid: <http://elizabeth.delgado.fuckeduphuman.net/> However the BLOG entry is currently hidden from public, but written and will become visible after December. Review my criminal record as of right now. I am sure what is recorded in court reflects my arrangement that this matter will be dropped to PC 415 California in December. Disturbing the Peace. You all are crazy! Not me! In the blog, Ms Delgado threatens to file a three day notice for a single cent. That is \$.01 - Go figure. Review, Google Search [the suicide prevention of james martin driskill]

End of submission.
